1. Introduction

EMIS 2010 was an internet based self-completion survey for men living in Europe who have sex with men. The survey was designed to generate data about sexual health outcomes, risk and precaution behaviours, prevention needs and access to interventions. The fieldwork took place from the afternoon of Friday 4 June 2010 to the early hours of Wednesday 1 September 2010.

EMIS could be completed in any of 25 languages. The questions were identical in each language version. Partially completed surveys (moving away from the web page before pressing 'submit') were not captured.

The datasets that are being outputted are national datasets (all men living in the same country, whatever language they completed the survey in), and a Pan-European dataset (men living in countries with 100 or more respondents).

This document describes the variables in the EMIS datasets. The datasets are supplied in SPSS (PASW Statistics 18) and annotated with the survey questions and answers. Should these labels become detached from the data, this document can be used to reconstruct them.

Each question in the survey has been given a number and that number is the name of the variable. The variable label is the question asked. The values for each variable give the response set as offered in the survey.

2. Cases Submitted and Non-Qualifiers

This chapter describes the number of cases submitted but excluded from the dataset because they do not meet the qualification criteria for the study.

Fifty cases entered language versions (31 Hungarian, 17 Italian, 1 English, 1 French) but not the consolidated file because of data corruption that could not be rectified.

There were 184,469 cases in consolidated file at the close of fieldwork. When downloaded, 3 cases were false cases created by incorrect kerning (creation of another case by misreading of a comma in an open-ended response), resulting in 184,466 cases.

2.1 NON-QUALIFIERS

Non-qualifiers are cases from respondents who do not meet the criteria for inclusion in the study, which were: men living in Europe, at or over the age of homosexual consent in the country they live in, who are sexually attracted to men and/or have sex with men, and who have indicated they understand the nature and purpose of the study and consent to take part. Non-qualifying cases have been removed from the datasets. The following indicates how many cases failed to qualify on each criteria.

Missing country of residence and outside Europe

464 cases were missing country of residence.

1,963 cases gave a country of residence outside Europe (see Chapter 9 for a list).

Remaining were 182,039 cases living in Europe. The number of cases submitted and the number of non-qualifiers in each European country is given in Table 2.

Missing consent

2 cases had not checked the confirmation of having read and understood the introduction.

Women

279 cases indicated they were women (Q1=2).

Exclusively heterosexual men

122 cases responded that they: male (Q1=1); but were sexually attracted to women only (Q9=5) and thought of themselves as straight or heterosexual (Q10=3) and had never had sex with man (Q148=8).

No evidence of homosexual desire, homosexual behaviour or non-heterosexual identity

74 cases provided no evidence for homosexual desire (Q9 missing), identity (Q10 missing) or sex with men (Q148 missing).

Age missing or out of range

Respondents were asked to give their age (in years). Answers that resembled reasonable years of birth (ie. 1933 to 1982) were converted to birthday age in 2010.

303 cases gave no numeric value for age.

24 cases gave an age between 1 and 12.

33 cases gave an age over 89.

Table 1: Cases Submitted and Non-Qualifiers

	DOWN- LOADED	No consent	Women	Hetero- sexual	No evidence of homo- sexuality	Age missing	Age under 13	Age over 89	<i>Total non- qualifiers</i>	QUALI- FIERS

2.2 QUALIFYING CASES

A total of 181,495 cases met the qualifying criteria. Cases can fail to qualify on more than one criteria (eg. be both a woman and missing age), therefore the total number of non-qualifying cases is less than the sum of the exclusions. The number of cases meeting the qualifying criteria in each country is given in the last column of Table 1.

2.3 NATIONAL DATASETS

National datasets are available for all countries with 100 or more qualifying cases. The following 13 European countries and states did not reach 100 qualifying cases. Data from these 291 MSM will not be used.

Albania (10)	Iceland (76)	Montenegro (66)
Andorra (19)	Kazakhstan (37)	San Marino (5)
Armenia (7)	Kosovo (25)	Vatican City (2)
Azerbaijan (7)	Liechtenstein (16)	
Georgia (10)	Monaco (11)	

Thirty eight national datasets are available from EMIS for the following countries:

Austria	Greece	Portugal
Belarus	Hungary	Romania
Belgium	Ireland (Republic)	Russia (Federation)
Bosnia and Herzegovina	Italy	Serbia
Bulgaria	Latvia	Slovakia
Croatia	Lithuania	Slovenia
Cyprus	Luxembourg	Spain
Czech Republic	Macedonia (FYRO)	Sweden
Denmark	Malta	Switzerland
Estonia	Moldova	Turkey
Finland	Netherlands	Ukraine
France	Norway	United Kingdom
Germany	Poland	

Cases living in England, Scotland, Wales, Northern Ireland form a UK dataset. Those living in British Overseas Territories and Crown Dependencies are made available with the UK dataset.

Cases who indicated living in Northern Ireland are available in both the UK and the Republic of Ireland datasets.

Cases living in Overseas Departments, Territories and Collectivities of France are available in the France dataset.

Cases who indicated living in the Turkish Republic of Northern Cyprus are available in both the Cyprus dataset and the Turkey dataset.

Cases living in Greenland are available in the Denmark dataset.

2.3 THE PAN-EUROPEAN DATASET

The Pan-European dataset includes respondents from all countries in Europe with 100 or more qualifying cases (see above for the list of countries included).

Cases living in Overseas Departments, Territories and Collectivities of France, in British Overseas Territories and Crown Dependencies, or in Greenland are not included in the consolidated dataset.

Cases living in Northern Ireland are included the UK, and cases living in the Turkish Republic of Northern Cyprus are included in Cyprus.

3. Missing Data

Missing and not applicable data are both always indicated in the dataset by '0' (numeric zero), except in the variable Q268-Q274. INTERNALISED HOMONEGATIVITY SCORE, where missing and not applicable data are both indicated by '-1'.

An answer may not be present in the dataset because a respondent simply did not supply an answer.

In addition, some questions are missing answers in specific language versions of the survey as described below.

3.1 HUNGARIAN LANGUAGE VERSION – MISSING Q217 and Q218

In error the Hungarian language version omitted Q217 and Q218. Hungarian language respondents are therefore missing responses to these two questions.

3.2 POLISH LANGUAGE VERSION – WORDING ERROR ON Q267-Q274

The first 784 cases completing the Polish language version were served a scale labeled 'strongly agree' at both ends, making responses un-interpretable. These responses have been deleted.

3.3 FINNISH LANGUAGE VERSION – WORDING CHANGE TO Q66

In the Finnish language version Q66 was originally "Tällä hetkellä HIV-infektioon ei ole hoitoa", suggesting HIV infection is not treatable. The first 705 Finnish language cases (up to and including Serial 101,301 submitted on 22 June 2010 at 10:29 hrs) were asked this statement, after which the sentence was changed to "Tällä hetkellä HIV-infektioon ei ole parantavaa hoitoa". The responses to Q66 before this change have been deleted.

3.4 OPEN-ENDED RESPONSES IN CYRILLIC AND GREEK SCRIPTS

In some cases, when the survey was submitted, answers to the five open ended questions (Q30, Q92, Q102, Q277 and Q278) written in Cyrillic or Greek characters were corrupted through the respondent's browser stripping off a components of the characters' Unicodes. Therefore the actual data saved is corrupted. The characters displayed were a degraded version of Unicode (as a vital part of the code for the characters was not saved). There is no way as far as we know of converting them into genuine Russian, Greek or Latin characters. This affected 1 cases answering in Bulgarian, 6 in Greek, 80 in Russian 1, 290 in Russian 2 and 35 in Ukrainian. These open-ended responses have been deleted (this is not the number of answers lost as the vast majority of respondents did not answer Q30, Q92 or Q102).

4. Case Variables

At the top of the dataset there are 8 variables about recruitment and survey completion.

Name	Description
Panelcode	A long unique code allocated when the data is submitted.
Serial	A short unique serial number allocated as the data entered the merged dataset.
Source	How the respondent was recruited. See Chapter 7 for codes.
Language	The language the respondent chose to participate in. 1.0=Bulgarian 2.0=Czech 3.0=Danish 4.0=Dutch 5.0=English 6.0=Estonian 7.0=Finnish 8.0=French 9.0=German 10.0=Greek 11.0=Hungarian 12.0=Italian 13.0=Latvian 14.0=Lithuanian 15.0=Norwegian 16.0=Polish 17.0=Portuguese 18.0=Romanian 19.0=Russian 1 19.1=Russian 2 20.0=Serbian 21.0=Slovenian 22.0=Spanish 23.0=Swedish 24.0=Turkish 25.0=Ukrainian Several changes were made to the wording of the Russian language version part way through the field work. Whether men completed using the first or second version is indicated by 'Russian 1' and 'Russian 2' in this variable.
Submitted	The date and time (Greenwich Mean Time) the data was submitted.
GMToffset	Local time was this many hours behind (-) or ahead (+) of GMT.
consent1	[See first page of questionnaire – checking this box is a qualifying criteria]
consent2	[See first page of questionnaire – checking this box is a qualifying criteria]

5. Inconsistent Data

To exclude cases with inconsistent data on one or more of the conditions described below, select 'anydiscrepant=1'

There may still be some logically discrepant data in the dataset.

Following the Case variables, there are 8 variables which distinguish those cases that contain inconsistent data.

Name	Description
agediscrepant	Does case contain age discrepant data? 1=No 2=Yes
testdiscrepant	Does case contain HIV testing history discrepant data? 1=No 2=Yes
stidiscrepant	Does case contain STI testing discrepant data? 1=No 2=Yes
sexdiscrepant	Does case contain sex discrepant data? 1=No 2=Yes
steadydiscrepant	Does case contain steady partner discrepant data? 1=No 2=Yes
nonsteadydiscrepant	Does case contain non-steady partner discrepant data? 1=No 2=Yes
anydiscrepant	Does the case contain ANY discrepant data? 1=No 2=Yes
numberdiscrepant	How many of the 38 discrepancies detailed below did the case have? [Values from 1 to 11]

Logically inconsistent data are answers to two questions which cannot both be valid. Inconsistent data could be submitted by moving backwards and forwards in the survey and changing previously given answers. It could also be submitted simply by supplying inconsistent answers across one or more questions.

Cases with inconsistent data on key variables can be excluded from the dataset to increase the quality of the data.

The following sections describe the number of cases with specific inconsistencies. Overall, 15,388 cases (8.5% of cases) had discrepant data in one or more of the conditions below. ***To exclude cases with inconsistent data on one or more of the conditions described below, select 'anydiscrepant=1'.***

The **Italian language version** was originally missing a number of conditions so that all respondents were served some questions which should have been served only to a subset of respondents. This was corrected following the first 86 cases submitted. The data has not been changed but may be expected to have higher inconsistent data.

In the change from the Russian 1 to **Russian 2 language versions**, a number of conditions were lost so that all respondents were served some questions which should have been served only to a subset of respondents. The data has not been changed but may be expected to have higher inconsistent data.

5.1 AGE DISCREPANCIES

28 cases gave an age now (Q2) smaller than the number of years they had been living in their country of residence (Q8).

3 cases gave an age now (Q2) smaller than the number of years since an HIV diagnosis (Q72).

300 cases gave an age now (Q2) smaller than their age at first sex with a man (Q149).

127 cases gave an age now (Q2) smaller than their age at first anal intercourse (Q151).

19 cases gave an age now (Q2) smaller than the number of years in a steady relationship with a man (Q46).

4 cases gave an age now (Q2) smaller than the number of years in a steady relationship with a woman (Q48).

A total of 413 cases (0.2% of cases) had age discrepant data in one or more of the above conditions. To exclude cases with inconsistent age data, select 'agediscrepant=1'

5.2 HIV TESTING DISCREPANCIES

25 cases indicated never having HIV tested or having last tested HIV negative (Q71) and gave a year of positive HIV diagnosis (Q72).

20 cases indicated never having HIV tested or having last tested HIV negative (Q71) and gave a place where they were diagnosed with HIV (Q75).

77 cases indicated never having tested for HIV or having tested HIV positive (Q71) and gave the recency of last negative HIV test result (Q104).

72 cases indicated never having tested for HIV or having tested HIV positive (Q71) and gave a location for their last negative HIV test result (Q105).

A total of 122 cases (0.1% of cases) had HIV testing discrepant data in one or more of the above conditions.

To exclude cases with inconsistent HIV testing history data, select 'testdiscrepant=1'

5.3 STI TESTING DISCREPANCIES

898 cases indicated never having tested for STIs or being unsure if they had (Q122) and gave the recency of their last STI test (Q123).

412 cases indicated never having tested for STIs or being unsure if they had (Q122) and answered the question on whether they had symptoms on that occasion (Q124).

213 cases indicated having last STI tested more than 12 months ago (Q123) and indicated whether they had symptoms on that occasion (Q124), which was only asked of men having an STI screen in the last 12 months.

A total of 1411 cases (0.8% of cases) had STI testing discrepant data in one or more of the above conditions.

To exclude cases with inconsistent STI testing data, select 'STIdiscrepant=1'

5.4 SEXUAL BEHAVIOR DISCREPANCIES

53 cases indicated never having had sex with a man (Q148) and gave an age for their first occasion of sex with a man or did not remember the age (Q149).

31 cases indicated never having had sex with a man (Q148) and having had anal intercourse with a man (Q150).

82 cases indicated never having had sex with a man (Q148) and gave an age for their first occasion of anal intercourse with a man or did not remember the age (Q151).

12 cases indicated never having had sex with a man (Q148) and gave a recency for their last anal intercourse with a man (Q152).

159 cases indicated never having had anal intercourse with a man (Q150) and gave an age for their first occasion of anal intercourse with a man or did not remember the age (Q151).

5 cases indicated never having had anal intercourse with a man (Q150) and gave a recency for their last unprotected anal intercourse with a man (Q154).

65 cases indicated never having sex with a woman (Q208) and gave a number of women intercourse partners in the last year (Q209).

A total of 295 cases (0.2% of cases) had sex discrepant data in one or more of the above conditions. To exclude cases with inconsistent sex data, select 'sexdiscrepant=1'

5.5 STEADY MALE PARTNER DISCREPANCIES

1320 cases indicated never having had anal intercourse (Q150) and having 1+ steady anal sex partners in the last 12 months (Q157).

520 cases indicated never having had anal intercourse (Q150) and having 1+ steady unprotected anal sex partners in the last 12 months (Q158).

120 cases indicated not having had a steady male partner (Q155) and gave a number of steady unprotected anal intercourse partners (Q158).

3272 cases indicated fewer steady partners (Q156) than steady anal partners (Q157).

1521 cases indicated fewer steady partners (Q156) than steady unprotected anal partners (Q158).

1042 cases indicated fewer steady anal partners (Q157) than steady unprotected anal partners (Q158).

49 cases indicated having had no steady anal intercourse partners (Q157) and having anal intercourse with their main steady partner (Q159) more frequently than not at all.

A total of 5634 cases (3.1% of cases) had steady partner discrepant data in one or more of the above conditions.

To exclude cases with inconsistent steady partner data, select 'steadydiscrepant=1'

5.6 NON-STEADY MALE PARTNER DISCREPANCIES

5 cases indicated not having had a non-steady partner (Q163) and gave a number of non-steady partners (Q164).

17 cases indicated not having had a non-steady partner (Q163) and gave a number of non-steady unprotected anal intercourse partners (Q166).

2162 cases indicated fewer non-steady partners (Q164) than non-steady anal partners (Q165).

507 cases indicated fewer non-steady partners (Q164) than non-steady unprotected anal partners (Q166).

583 cases indicated fewer non-steady anal partners (Q165) than non-steady unprotected anal partners (Q166).

1833 cases indicated never having had anal intercourse (Q150) and having 1+ non-steady anal sex partners in the last 12 months (Q165).

331 cases indicated never having had anal intercourse (Q150) and having 1+ non-steady unprotected anal sex partners in the last 12 months (Q166).

2024 cases indicated never having had anal intercourse (Q150) and having had insertive anal intercourse with a non-steady partner in the last 12 months (Q172).

1677 cases indicated never having had anal intercourse (Q150) and having had receptive anal intercourse with a non-steady partner in the last 12 months (Q173).

1918 cases indicated never having had anal intercourse (Q150) and having anal intercourse with a non-steady partner in the last 12 months (Q176).

3842 cases indicated they had anal intercourse with a non-steady partner in last 12 months (Q176) and the proportion of non-steady partners they had anal intercourse with was none (Q177).

A total of 8932 cases (4.9% of cases) had non-steady partner discrepant data in one or more of the above conditions.

To exclude cases with inconsistent non-steady partner data, select 'nonsteadydiscrepant=1'

5.7 DISCREPANT COUNTRY AND REGION OF RESIDENCE, OR TWO REGIONS OF RESIDENCE IN DIFFERENT COUNTRIES

There was no space in EMIS for respondents to express living in two countries. Some cases indicated a region of residence in a country other than the country they indicated living in, usually in addition to a region in the country they did live in. In all these cases, the country of residence indicated takes precedence over the inconsistent region.

National databases include all respondents who said they lived in that country. Where two regions were supplied, the inconsistent region is dropped (the national database does not include the regional questions for other countries). Where only an inconsistent region was supplied, the region is missing.

5.8 INCONSISTENT ANSWERS ABOUT COUNTRY OF BIRTH

Some cases indicated they were born in their country of residence (Q6=2) but also gave answers to Which country were you born in? (Q7) and How many years have you been living in <country of residence>? (Q8), which should only have been asked of men born outside their country of residence. Cases who gave a country of birth (Q7) the same as their country of residence (Q4) had Q7 and Q8 set to missing.

Cases who gave number of years in country of residence (Q8) the same as their age (Q2) had Q7 and Q8 set to missing.

Cases that gave a country of birth (Q8) different to their country of residence (Q4) AND gave a number of years living in country of residence had Q6 set as No.

Cases that gave an answer to only one of Q7 and Q8 but not the other, had those answers set to missing.

6. The Questionnaire

This chapter contains the complete text of the English language version of the EMIS survey, including the introductory text, exit texts and page headings. Routing instructions and notes in square brackets [] did not appear on-screen. All questions are numbered sequentially as they appeared in the questionnaire. Words in chevrons < > refer to the answer to a previous question.

Commonly used response sets appear in square brackets and are given in Chapter 8

[INTRODUCTORY TEXT]

EMIS: European Man-for-Man Internet Survey 2010

Welcome to the largest ever survey of gay men, bisexual men and other men who are attracted to men. It is happening across Europe.

Please take part if you are...

- a man who is attracted to other men AND/OR
- a man who has sex with men AND/OR
- a man who thinks he might have sex with men in the future

You must be old enough to legally have sex in the country where you live.

What's it about?

It asks about relationships, sex life, risks and precautions, and use of health services. One of the goals is to see whether gay men and other men who have sex with men have access to HIV testing and prevention. Most men take 20 to 30 minutes to complete the survey.

What about data protection?

We guarantee your anonymity. We will **NOT** collect the IP-address of your computer or try to install any cookies on it. We will not collect any information about you that would allow anybody to identify you.

A report of the survey results will be produced towards the end 2010. It will be available from the project's website.

Who are we?

We are an international group of researchers and health workers in public health institutes, universities and non-governmental organisations working in HIV, gay health and human rights, from 31 European countries.

The survey is funded by the European Commission and supported by the European Centre for Prevention and Disease Control, the European Regional Office of the World Health Organization, and many national and international gay organisations and websites.

You can get more information about the survey at www.emis-project.eu

Please complete this survey ONCE ONLY this summer.

Tick both of these boxes to say that you have read and understood what the questionnaire is about and that you wish to take part.

- I have read and understood the above information. [consent1]
- In the country I live in, I am old enough to legally have sex with men. [consent2]

ABOUT YOU

Q1. Are you... [compulsory question]

1=A man

2=A woman

3=Transgender/Transsexual: Man to woman

4=Transgender/Transsexual: Woman to man

[Indicating 1, 3 or 4 was a qualifier so there is no missing data in this variable]

Q1b. [if Q1=2] This research is about men. You are very welcome to read and complete the rest of the survey however we will be unable to use your data. What would you like to do?

1=Exit the survey now

2=Continue reading the survey

[Q1b does not appear in the dataset]

[If Q1b=1] Thank you for your interest in EMIS, the results will be available across Europe in 2011. You can get more information at www.emis-project.eu [go to exit page]

[If Q1=3 or 4] Thank you for your interest in the survey, we are very pleased to welcome you. Please note that some of the questions may not reflect your personal biological situation. If you feel a question does not apply to you, please leave it blank and move onto the next question.

Q2. How old are you?

[write in answer - number of years]

[Providing a valid age was a qualifier so there is no missing data in this variable]

ABOUT WHERE YOU LIVE

Q3. How would you describe the place you live in?

1=A very big city or town (a million or more people)

2=A big city or town (500,000-999,999 people)

3=A medium-sized city or town (100,000-499,999 people)

4=A small city or town (10,000-99,999 people)

5=A village / the countryside (less than 10,000 people)

Q4. Which country do you currently live in? [compulsory question]

[see Chapter 9, country response set]

[Providing a country in Europe was a qualifier so there is no missing data in this variable]

Q4b. [if Q4 is not a European country: see Chapter 9 for list] This research is about men living in European countries. You are very welcome to read and complete the rest of the survey, however we will be unable to use your data. What would you like to do?

1=Exit the survey now

2=Continue reading the survey

[Q4b does not appear in the dataset]

[If Q4b=1] Thank you for your interest in EMIS, the results will be available across Europe in 2011. You can get more information at www.emis-project.eu [go to exit page]

4c. RECODED VARIABLE. COUNTRY CODE Top level domain name

[This variable provides a short code for the country of residence, using the internet two letter domain codes for the countries. These are ordered alphabetically and are therefore not in the same order as the countries names in English in Q4. Only countries with 100 or more qualifying cases are given a country code.]

- 1=.AT [Austria]
- 2=.BA [Bosnia & Herzegovina]
- 3=.BE [Belgium]
- 4=.BG [Bulgaria]
- 5=.BY [Belarus]
- 6=.CH [Switzerland]
- 7=.CY [Cyprus]
- 8=.CZ [Czech Republic]
- 9=.DE [Germany]
- 10=.DK [Denmark]
- 11=.EE [Estonia]
- 12=.ES [Spain]
- 13=.FI [Finland]

- 38=.UK [United Kingdom]

Q5. Which [region, province, district, etc.] do you live in?
[see Chapter 10, Region Response Sets]

YOUR COUNTRY OF BIRTH

Q6. Were you born in <Q4>?
[No-Yes]

Q7. [if Q6=1] Which country were you born in? (If it does not exist anymore, please select the country that best applies.)
[see Chapter 9, Country Response Set]

Q8. [if Q6=1] How many years have you been living in <Q4>?

1=Less than a year

2=1

3=2

...

111=110

ABOUT YOUR SEXUALITY

Q9. Who are you sexually attracted to?

1=Only to men

2=Mostly to men and sometimes to women

3=Both to men and women equally

4=Mostly to women and sometimes to men

5=Only to women

Q10. Which of the following options best describes how you think of yourself?

1=Gay or homosexual

2=Bisexual

3=Straight or heterosexual

4=Any other term

5=I don't usually use a term

Q11. [if Q9=1, 2 3 or 4] Thinking about all the people who know you (including family, friends and work or study colleagues), what proportion know that you are attracted to men?

1=All or almost all

2=More than half

3=Less than half

4=Few

5=None

HOW YOU FEEL ABOUT YOUR SEX LIFE

Q12-Q14. Do you disagree or agree with the following statements?

Q12. The sex I have is always as safe as I want it to be.

[5 point disagree-agree]

Q13. I find it easy to say 'no' to sex I don't want.

[5 point disagree-agree]

Q14. I'm satisfied with what I know about HIV and sexually transmitted infections.

[5 point disagree-agree]

Q15. Are you happy with your sex life?

[No-Yes]

Q16-Q29 [if Q15=1] Why are you not happy with your sex life? Tick as many as apply. [Q16-Q28 were rotated so that their order of presentation changed]

Q16. I am not having any sex.

[No-Yes]

Q17. I would like more sexual partners.

[No-Yes]

- Q18. I worry about having too many sexual partners.
[No-Yes]
- Q19. I would like more sex with the man / men I have sex with.
[No-Yes]
- Q20. I want a steady relationship with someone.
[No-Yes]
- Q21. I have problems in my steady relationship.
[No-Yes]
- Q22. I am not as sexually confident as I want to be.
[No-Yes]
- Q23. I worry about passing on HIV or other STIs.
[No-Yes]
- Q24. I worry about picking up HIV or other STIs.
[No-Yes]
- Q25. I have problems getting or keeping a hard-on (erection).
[No-Yes]
- Q26. My sex drive is too low.
[No-Yes]
- Q27. My health problems interfere with sex.
[No-Yes]
- Q28. My partner's health problems interfere with sex.
[No-Yes]
- Q29. Other reason
[No-Yes]
- Q30. [if Q29=2] What other reason do you have for not being happy with your sex life?
[write in answer]

THE PLACES YOU VISIT IN THE COUNTRY YOU LIVE IN

When did you last visit each of the following types of places in <Q4>. Please say when you last did something, even if this was not typical for you, or if it was for your work.

- Q31. When did you last visit **a gay community centre, organisation or social group** in <Q4>?
[recency response set]
- Q32. When did you last visit **a gay cafe, bar or pub** in <Q4>?
[recency response set]
- Q33. When did you last visit **a gay disco or nightclub** in <Q4>?
[recency response set]
- Q34. When did you last visit a backroom of **a bar, gay sex club, a public gay sex party** in <Q4>?
[recency response set]

Q35. When did you last visit **a gay sex party in a private home** in <Q4>?
[recency response set]

Q36. When did you last visit **a gay sauna** in <Q4>?
[recency response set]

Q37. When did you last visit **a porn cinema** in <Q4>?
[recency response set]

Q38. When did you last visit **a cruising location where men meet for sex** (street, roadside service area, park, beach, baths, lavatory) in <Q4>?
[recency response set]

Q39. AND FINALLY, APART FROM THIS TIME IN FRONT OF A COMPUTER, when did you last visit **any website for gay and bisexual men** including dating, information and porn sites?
[recency response set]

ABOUT YOUR RELATIONSHIPS AND FRIENDSHIPS

Q40-Q45. Are you currently in a steady relationship? Tick as many as apply

Q40. Yes, with a man
[No-Yes]

Q41. Yes, with more than one man
[No-Yes]

Q42. Yes, with a woman
[No-Yes]

Q44. Yes, with more than one woman
[No-Yes]

Q45. No, I'm single
[No-Yes]

Q40_45a. RECODED VARIABLE. Current steady relationship with a man.
1=Not in a steady relationship with a man
2=With one man
3=With more than one man

Q40_45b. RECODED VARIABLE. Current steady relationship with a woman.
1=Not in a steady relationship with a woman
2=With one woman
3=With more than one woman

Q46. [if Q40=2 or Q41=2] How many years have you been in a steady relationship with this **man**? (If you have more than one steady relationship with a man, please tell us about the longest)
1=Less than a year
2=1
3=2
...
26=25
27=More than 25 years

Q47. [if Q40=2 or Q41=2] Do you and this steady **male partner** have the same HIV status?

1=Yes, we have the same HIV status (either both positive or both negative).

2=No, one of us is positive and the other is negative.

3=Don't know whether we have the same status or not.

Q48. [if Q42=2 or Q43=2] How many years have you been in a steady relationship with this **woman**? (If you have more than one steady relationship with a woman, please tell us about the longest)

1=Less than a year

2=1

3=2

...

26=25

27=More than 25 years

Q49. [if Q42=2 or Q43=2] Do you and this steady **female partner** have the same HIV status?

1=Yes, we have the same HIV status (either both positive or both negative).

2=No, one of us is positive and the other is negative.

3=Don't know whether we have the same status or not.

Q50-Q57. Who do you live with? Tick as many as apply. [The responses to Q50-57 have been recoded from No-Yes responses]

Q50. Male partner

1=Live alone

2=Live with male partner

3=Live with other/s but not a male partner

Q51. Female partner

1=Live alone

2=Live with female partner

3=Live with other/s but not a with female partner

Q52. Child(ren)

1=Live alone

2=Live with children

3=Live with other/s but not with children

Q53. Friends

1=Live alone

2=Live with friends

3=Live with other/s but not with friends

Q54. One or both of my parents

1=Live alone

2=Live with parents

3=Live with other/s but not with parents

Q55. Other family members

1=Live alone

2=Live with other family members

3=Live with other/s but not with other family members

Q56. Others

1=Live alone

2=Live with others apart from those specified previously

3=Live with one or more of those specified previously in list but not "others"

Q57. I live by myself
1=I live by myself
2=I live with one or more other people

Q58. What proportion of your male friends are attracted to men?
1=Almost all of them
2=More than half of them
3=Approximately half of them
4=Less than half of them
5=Almost none of them
6=I don't have any male friends

Q59-Q60. Do you disagree or agree with the following statements?

Q59. I sometimes feel lonely.
[5 point disagree-agree]

Q60. I know where to go if I want to make some new friends.
[5 point disagree-agree]

DID YOU KNOW THIS ABOUT HIV, TESTING AND TREATMENT

Q61-Q68. The following seven statements are all TRUE. **Did you know this already?**

Q61. AIDS is caused by a virus called HIV.
[knowledge response set]

Q62. You cannot be confident about whether someone has HIV or not from their appearance.
[knowledge response set]

Q63. There is a medical test that can show whether or not you have HIV.
[knowledge response set]

[There is no Q64.]

Q65. If someone becomes infected with HIV it may take several weeks before it can be detected in a test.
[knowledge response set]

Q66. There is currently no cure for HIV infection.
[knowledge response set]

Q67. HIV infection can be controlled with medicines so that its impact on health is much less.
[knowledge response set]

Q68. Effective treatment of HIV infection reduces the risk of HIV being transmitted.
[knowledge response set]

ABOUT TAKING AN HIV TEST

Q69. What do you think your current HIV status is (whether or not you've ever tested for HIV)?
1=Definitely negative (I don't have HIV)
2=Probably negative
3=Not sure / I don't know
4=Probably positive
5=Definitely positive (I do have HIV)

Q70. Have you ever been forced or tricked into taking an HIV test when you did not want to take one?
1=No
2=Yes
3=I don't know

Q71. Have you ever received an HIV test result?
1=No, I've **never** received an HIV test result
2=Yes, I've tested **positive** (I have HIV infection)
3=Yes, my last test was **negative** (I did not have HIV infection at the time of the test)

TESTING POSITIVE FOR HIV

Q72. [if Q71=2] In which year were you first diagnosed HIV positive?
1=1984
2=1985
...
27=2010

Q72a: RECODED VARIABLE. Number of years living with diagnosed HIV in 2010.
0.5=less than 1 year
1=1 year
2=2 years
...
26=26 years

Q73. [if Q72=26, ie. 2009] Were you first diagnosed with HIV within the last 12 months?
[No-Yes]

Q74. [if Q72 greater than 17, ie. diagnosed in 2001 or later] When you were first diagnosed with HIV, what was your CD4 count?
1=Less than 200 cells/ μ l
2=200-349 cells/ μ l
3=350-500 cells/ μ l
4=More than 500 cells/ μ l
5=I don't remember / I don't know

Q75. [if Q71=2] Where were you first diagnosed with HIV?
1=General Practitioner / family doctor
2=A doctor in private practice
3=At a hospital or clinic as an out-patient
4=At a hospital as an in-patient
5=At an HIV testing service (that is not in a hospital or clinic)
6=At a blood bank, while donating blood
7=I used a home testing kit
8=In a bar/pub, club or sauna
9=Mobile medical unit
10=Elsewhere

Q76. [if Q71=2] When you were first diagnosed HIV positive, did you have an **opportunity** to talk about the sex you have?
1=No
2=Yes
3=I don't remember
4=Not applicable

Q77. [if Q76=2] When you were first diagnosed HIV positive, **did you talk** about the sex you have?
1=No
2=Yes
3=I don't remember

Q78. [if Q77=2] When you were first diagnosed HIV positive, did you talk about the sex you have **with men**?
1=No
2=Yes
3=I don't remember

Q79. [if Q71=2] When you were first diagnosed HIV positive, how satisfied were you with the way the testing service **kept your confidentiality**?
1=Very satisfied
2=Satisfied
3=Dissatisfied
4=Very dissatisfied
5=I don't remember / I did not think about it

Q80. [if Q71=2] When you were first diagnosed HIV positive, how satisfied were you with the **respect you were treated with**?
1=Very satisfied
2=Satisfied
3=Dissatisfied
4=Very dissatisfied
5=I don't remember / I did not think about it

Q81. [if Q71=2] When you were first diagnosed HIV positive, how satisfied were you with the **counselling you received**?
1=I did not receive counselling
2=Very satisfied
3=Satisfied
4=Dissatisfied
5=Very dissatisfied
6=I don't remember / I did not think about it

MONITORING YOUR HIV INFECTION

Q82. [if Q71=2] When did you last see a health professional for monitoring your HIV infection?
[recency response set]

Q83. [if Q71=2] Have you ever taken antiretroviral treatment (sometimes know as ART or HAART) for your HIV infection?
[No- Yes]

Q84-Q91. [if Q83=1] Why have you never taken antiretroviral treatment for your HIV infection? Tick as many as apply. [Q84-90 were rotated so that their order of presentation changed]

Q84. My doctor says I don't need antiretroviral treatment at the moment.
[No- Yes]

Q85. To avoid the side-effects.
[No- Yes]

Q86. I feel it is not necessary.
[No- Yes]

Q87. I'm afraid people will notice.

[No- Yes]

Q88. I don't want to be reminded about HIV every day.

[No- Yes]

Q89. The treatment is not available in the country I live in.

[No- Yes]

Q90. I can't afford the treatment.

[No- Yes]

Q91. Other reason.

[No- Yes]

Q92. [if Q91=2] For what other reason have you never taken antiretroviral treatment?

[write in answer]

Q93.[if Q83=2] Are you currently taking antiretroviral treatment?

[No-Yes]

Q94-101. [if Q93=1] Why have you stopped taking antiretroviral treatment? Tick as many as apply.
[Q94-100 were rotated so that their order of presentation changed]

Q94. My doctor says I don't need antiretroviral treatment at the moment.

[No-Yes]

Q95. To avoid the side-effects.

[No-Yes]

Q96. I feel it is not necessary.

[No-Yes]

Q97. I'm afraid people will notice.

[No-Yes]

Q98. I don't want to be reminded about HIV every day.

[No-Yes]

Q99. The treatment stopped being available in the country I live in.

[No-Yes]

Q100. I can no longer afford the treatment.

[No-Yes]

Q101. Other reason.

[No-Yes]

Q102. [if Q101=2] For what other reason have you stopped taking antiretroviral treatment?

[write in answer]

Q103. [if Q82 less than 8] What was the result of your viral load test the last time you had your HIV infection monitored?

- 1=Undetectable
- 2=Detectable
- 3=I was told but I don't remember the result
- 4=It was measured but I was not told the result
- 5=It was not measured
- 6=I don't remember

TESTING NEGATIVE FOR HIV

Q104. [if Q71=3] When did you **last** have an HIV test?
[recency response set]

Q105. [if Q71=3] Where did you go for your **last** HIV test?

- 1=General Practitioner / family doctor
- 2=A doctor in private practice
- 3=At a hospital or clinic as an out-patient
- 4=At a hospital as an in-patient
- 5=At an HIV testing service (that is not in a hospital or clinic)
- 6=At a blood bank, while donating blood
- 7=I used a home testing kit
- 8=In a bar/pub, club or sauna
- 9=Mobile medical unit
- 10=Elsewhere

Q106. [if Q71=3] The last time you tested for HIV, did you have an **opportunity** to talk about the sex you have?

- 1=No
- 2=Yes
- 3=I don't remember

Q107. [if Q106=2] The last time you tested, **did you talk** about the sex you have?

- 1=No
- 2=Yes
- 3=I don't remember

Q108. [if Q107=2] The last time you tested, did you talk about the sex you have **with men?**

- 1=No
- 2=Yes
- 3=I don't remember

Q109. [if Q71=3] The last time you tested for HIV, how satisfied were you with the way the testing service **kept your confidentiality?**

- 1=Very satisfied
- 2=Satisfied
- 3=Dissatisfied
- 4=Very dissatisfied
- 5=I don't remember / I did not think about it

Q110. [if Q71=3] The last time you tested for HIV, how satisfied were you with the **respect you were treated with?**

- 1=Very satisfied
- 2=Satisfied
- 3=Dissatisfied
- 4=Very dissatisfied
- 5=I don't remember / I did not think about it

Q111. [if Q71=3] The last time you tested for HIV, how satisfied were you with the **counselling you received**?

- 1=I did not receive counselling
- 2=Very satisfied
- 3=Satisfied
- 4=Dissatisfied
- 5=Very dissatisfied
- 6=I don't remember / I did not think about it

OPPORTUNITIES TO TEST FOR HIV

Q112. [if Q71=1] How confident are you that you could get a test for HIV if you wanted one?

- 1=Very confident
- 2=Quite confident
- 3=A little confident
- 4=Not at all confident
- 5=I don't know

Q113. [if Q71=3] How confident are you that you could get another test for HIV if you wanted one?

- 1=Very confident
- 2=Quite confident
- 3=A little confident
- 4=Not at all confident
- 5=I don't know

Q114. [if Q71=1 or 3] Can you personally get free HIV testing in the country you live in?

- 1=No
- 2=Yes
- 3=I don't know

Q115. [if Q114=1 or 3] Could you afford to pay for an HIV test?

- 1=No
- 2=Yes
- 3=I don't know

OPPORTUNITIES TO TEST FOR SEXUALLY TRANSMITTED INFECTIONS (STIs) OTHER THAN HIV

Q116. How confident are you that you could get a test for sexually transmitted infections (STIs) other than HIV if you thought you needed it?

- 1=Very confident
- 2=Quite confident
- 3=A little confident
- 4=Not at all confident
- 5=I don't know

Q117. Can you personally get free STI testing in the country you live in?

- 1=No
- 2=Yes
- 3=I don't know

Q118. [if Q117=1 or 3] Could you afford to pay for STI testing?

- 1=No
- 2=Yes
- 3=I don't know

Q119. Have you been vaccinated against hepatitis B?
1=No, I am naturally immune to hepatitis B (because I had it in the past)
2=No, and I don't know if I'm immune
3=Yes, and I completed the course of 3 shots of vaccine
4=Yes, but I did not complete the course of 3 shots of vaccine
5=Yes, but I did not respond to the vaccinations
6=I don't know

Q120. [if Q1=1] Are you circumcised?
1=No
2=Yes, before the age of 18
3=Yes, at age 18 or after
4=I don't know

Q121. [if Q1=3] Are you circumcised?
1=No, I am not circumcised
2=Yes, I am circumcised
3=I have had lower surgery
4=I don't know

TESTING FOR OTHER SEXUALLY TRANSMITTED INFECTIONS

Q122. Have you ever had a test for sexually transmitted infections (STIs) other than HIV?
1=No
2=Yes
3=I don't know

Q123. [if Q122=2] When did you **last** have a test for STIs other than HIV?
[recency response set]

Q124. [if Q123 less than 6] Did you have any symptoms on that occasion?
1=No
2=Yes
3=I don't remember

WHAT HAPPENED DURING TESTS FOR SEXUALLY TRANSMITTED INFECTIONS IN THE LAST 12 MONTHS?

Q125-Q130 [if Q123 less than 6]

Q125. Have you provided a **blood sample** as part of any STI test in the last 12 months?
1=No
2=Yes
3=I don't remember

Q126. Have you provided a **urine sample** as part of any STI test in the last 12 months?
1=No
2=Yes
3=I don't remember

Q127. [if Q1=1 or Q121=1 or 2] Has your **penis been examined** as part of any STI test in the last 12 months?
1=No
2=Yes
3=I don't remember

Q128. [if Q1=1 or Q121=1 or 2] Was something inserted into the opening of your penis (**urethral swab**) as part of any STI test in the last 12 months?

- 1=No
- 2=Yes
- 3=I don't remember

Q129. Has your **anus been examined** as part of any STI test in the last 12 months?

- 1=No
- 2=Yes
- 3=I don't remember

Q130. Was something inserted into your anus (**anal swab**) as part of any STI test in the last 12 months?

- 1=No
- 2=Yes
- 3=I don't remember

DIAGNOSIS OF SEXUALLY TRANSMITTED INFECTIONS

Q131. Have you ever been diagnosed with **syphilis**?

- 1=No
- 2=Yes
- 3=I don't know

Q132. [if Q131=2] When were you last diagnosed with **syphilis**?

[recency response set]

Q133. Have you ever been diagnosed with **gonorrhoea**?

- 1=No
- 2=Yes
- 3=I don't know

Q134. [if Q133=2] When were you last diagnosed with **gonorrhoea**?

[recency response set]

Q135. Have you ever been diagnosed with **chlamydia**?

- 1=No
- 2=Yes
- 3=I don't know

Q136. [if Q135=2] When were you last diagnosed with **chlamydia**?

[recency response set]

Q137. Have you ever been diagnosed with **anal or genital warts**?

- 1=No
- 2=Yes
- 3=I don't know

Q138. [if Q137=2] When were you FIRST diagnosed with **anal or genital warts**?

[recency response set]

Q139. Have you ever been diagnosed with **anal or genital herpes**?

- 1=No
- 2=Yes
- 3=I don't know

Q140. [if Q139=2] When were you **FIRST** diagnosed with **anal or genital herpes**?
[recency response set]

Q141. Have you ever been diagnosed with **hepatitis C**?
1=No
2=Yes
3=I don't know

Q142. [if Q141=2] When were you **FIRST** diagnosed with **hepatitis C**?
[recency response set]

Q143. [if Q141=2] What is your current hepatitis C status?
1=I cleared it spontaneously without treatment
2=I cleared it with treatment
3=I still have it
4=I don't know

INFORMATION ABOUT HIV AND SEXUALLY TRANSMITTED INFECTIONS

Please say when you last did something, even if this was not typical for you.

Q144. When was the last time you saw or heard any information about HIV or STIs specifically for men who have sex with men?
[recency response set]

Q145. When was the last time you saw any information about HIV or STIs in a **magazine or newspaper**?
[recency response set]

Q146. When was the last time you actively looked for information about HIV or STIs on the **internet**?
[recency response set]

Q147. When did you last call a **telephone helpline** for information about HIV or STIs?
[recency response set]

ABOUT SEX WITH MEN

Please say when you last did something, even if this was not typical for you.

In this survey, we use "sex" to mean physical contact to orgasm (or close to orgasm) for one or both partners.

Q148. When did you last have any kind of sex with a man (please include any sexual contact, not just anal intercourse)?
[recency response set]

Q149. [if Q148 less than 8] How old were you the **very first** time you had any kind of sex with a man/boy, or a man/boy had any kind of sex with you?
1=I don't remember
2=Younger than 13 years
3=13
4=14
...
20=30
21=Older than 30 years

In this survey we use the term "anal intercourse" (fucking, screwing) to mean sex where one partner puts his penis into the other partner's anus, whether or not this occurs to ejaculation.

Q150. Have you **ever** had anal intercourse with a man (either "passive" or "active" fucking), either with or without a condom?

[No=Yes]

Q151. [if Q150=2] How old were you the **very first** time you had anal intercourse with a man/boy?

1=I don't remember

2=Younger than 13 years

3=13

4=14

...

20=30

21=Older than 30 years

Q152. [if Q150=2] When did you **last** have anal intercourse with a man (either with or without a condom)?

[recency response set]

Q153. [if Q150=2] On that most recent occasion of anal intercourse, did you have **unprotected** anal intercourse (that is without a condom)?

[No-Yes]

Q154. [if Q153=1] When did you **last** have **unprotected anal intercourse** with a man (that is without a condom)?

[recency response set]

[if Q148 less than 6] **ABOUT SEX WITH A STEADY MALE PARTNER OR PARTNERS**

In this survey we use the term 'steady partners' to refer to boyfriends or husbands that mean you are not 'single', but not to partners who are simply sex buddies.

Q155. In the last 12 months have you had **any kind** of sex with a **steady male partner**?

[No-Yes]

Q156. [if Q155=2] How many different **steady male partners** have you had sex with in the last 12 months?

1=1

...

10=10 or more

Q157. [if Q155=2] How many steady male partners have you had **anal intercourse** with in the last 12 months?

1=None

2=1

...

11=10 or more

Q158. [if Q157 greater than 1] How many steady male partners have you had **anal intercourse without a condom** with in the last 12 months?

1=None

2=1

...

11=10 or more

[if Q157 greater than 1] **ABOUT ANAL INTERCOURSE WITH YOUR STEADY MALE PARTNER**

The next few questions are about sex with your current or most recent steady partner. If you have more than one steady partner, please tell us about the partner you have been having sex with for the longest period of time.

Q159. [if Q157 greater than 1] In the last 12 months, how often have you had anal intercourse with your **steady male partner**?

- 1=Not at all
- 2=1-2 times
- 3=3-10 times
- 4=11-50 times
- 5=More than 50 times

Q160. [if Q159 greater than 1] In the last 12 months, how often were condoms used for anal intercourse with your **steady male partner**?

- 1=Not at all
- 2=Seldom
- 3=Sometimes
- 4=Mostly
- 5=Always

Q161. [if Q160 less than 5] The **last time** you had anal intercourse with your **steady male partner**, did you use a condom?

[No-Yes]

Q162. [if Q157 greater than 1] Do you and this steady **male partner** have the same HIV status?

- 1=Yes, we have the same HIV status (either both positive or both negative).
- 2=No, one of us is positive and the other is negative.
- 3=Don't know whether we have the same status or not.

[if Q148 less than 8] **ABOUT SEX WITH NON-STEADY MALE PARTNERS**

In this survey we use the term 'non-steady partners' to mean men you have had sex with once only, and men you have sex with more than once but who you don't think of as a steady partner (including one night stands, anonymous and casual partners, regular sex buddies).

Q163. In the last 12 months have you had **any kind** of sex with a **non-steady male** partner?

[No-Yes]

Q164. [if Q163=2] How many different **non-steady male partners** have you had sex with in the last 12 months?

- 1=1
- ...
- 10=10
- 11=11-20
- 12=21-30
- 13=31-40
- 14=41-50
- 15=More than 50

Q165. [if Q163=2] How many non-steady partners did you have **anal intercourse** with in the last 12 months?

- 1=None
- 2=1
- ...
- 11=10
- 12=11-20
- 13=21-30
- 14=31=40
- 15=41-50
- 16=More than 50

Q166. [if Q165 greater than 1] How many non-steady male partners have you had **anal intercourse without a condom** with in the last 12 months?

- 1=None
- 2=1
- ...
- 11=10
- 12=11-20
- 13=21-30
- 14=31=40
- 15=41-50
- 16=More than 50

[if Q163=2] **ABOUT THE KINDS OF SEX YOU'VE HAD WITH NON-STEADY MALE PARTNERS**

Thinking about the sex you've had with **non-steady male partners** only, how long has it been since you engaged in each of the following? Please say when you last did something, even if this was not typical for you.

Q167. When did you last have mutual masturbation (wanking)?
[recency response set]

Q168. When did you last suck a man's penis (cock)?
[recency response set]

Q169. When did you last get your penis (cock) sucked?
[recency response set]

Q170. When did you last lick a man's anus (rim a man)?
[recency response set]

Q171. When did you last have a man lick your anus (get rimmed)?
[recency response set]

Q172. When did you last have 'active' anal intercourse (you fucked a man), either with or without a condom?
[recency response set]

Q173. When did you last have 'passive' anal intercourse (you were fucked by a man), either with or without a condom?
[recency response set]

Q174. When did you last put your hand into a man's rectum (do the fist-fucking)?
[recency response set]

Q175. When did you last have a man's hand in your rectum (get fist-fucked)?
[recency response set]

[if Q163=2] **ABOUT ANAL INTERCOURSE WITH NON-STEADY MALE PARTNERS**

Q176. Just to check, have you had **anal intercourse** with a **non-steady male sex partner in the last 12 months**?

[No-Yes]

Q177. [if Q176=2] In the last 12 months, **what proportion** of your non-steady male sex partners have you had **anal intercourse** with?

1=None of them

2=Some of them

3=Around half of them

4=Most of them

5=All of them

Q178. [if Q177 greater than 1] In the last 12 months, how often were **condoms** used when you had anal intercourse with non-steady male partners?

1=Never

2=Seldom

3=Sometimes

4=Mostly

5=Always

Q179. [if Q178 less than 5] Have you had unprotected anal intercourse with a non-steady partner who you **knew at the time was HIV positive**?

[No-Yes]

Q180. [if Q178 less than 5] Have you had unprotected anal intercourse with a non-steady partner who you **knew at the time was HIV negative**?

[No-Yes]

Q181. [if Q178 less than 5] Have you had unprotected anal intercourse with a non-steady partner whose **HIV status you did not know or think about at the time**?

[No-Yes]

[if Q163=2] **ABOUT THE LAST TIME YOU HAD ANY SEX WITH A NON-STEADY MALE PARTNER**

Please think about the most recent occasion you had sex with a non-steady male sex partner (whether or not you had anal intercourse).

Q182. Where did you first meet him?

1=A gay community centre, gay organisation or gay social group

2=A gay café or gay bar

3=A gay disco or nightclub

4=A backroom of a bar, gay sex club, a public gay sex party

5=A gay sex party in a private home

6=A gay sauna

7=A porn cinema

8=A cruising location (street, roadside service area, park, beach, baths, lavatory)

9=A website for gay or bisexual men

10=Elsewhere

Q183. Have you had sex with him before (on a different occasion)?

- 1=No
- 2=Yes, one time
- 3=Yes, more than one time

Q184. What did you tell him about your HIV status before or during sex?

- 1=I told him I didn't know my HIV status
- 2=I told him I was HIV negative
- 3=I told him I was HIV positive
- 4=I said nothing about my HIV status
- 5=I don't remember

Q185. What did you know or think about his HIV status before having sex?

- 1=I knew or thought he was HIV negative
- 2=I knew or thought he was HIV positive
- 3=I don't remember
- 4=I didn't have any thoughts about his HIV status

Q186. [if Q185=1 or 2] Why did you think this? Please read the list below and tick the answer that best applies. [responses were rotated so that their order of presentation changed]

- 1=He told me some time ago / I had known for some time
- 2=He told me (online or in person) before or during sex
- 3=I knew it from his profile on the Internet
- 4=He made it clear without actually telling me
- 5=Someone else told me
- 6=We were at an event where everyone was HIV positive
- 7=We were at an event where everyone was HIV negative
- 8=I guessed
- 9=Other reason

[if Q163=2] **MORE ABOUT YOUR LAST NON-STEADY MALE SEX PARTNER**

Still thinking about the last time you had sex with a non-steady male sex partner.

Q187. Did you have anal intercourse (fuck) on that occasion?

- 1=No
- 2=Yes, he fucked me
- 3=Yes, I fucked him
- 4=Yes, we fucked each other

Q188. [if Q187=2 or 4] Did **he use a condom** when he was active in anal intercourse (when he fucked you)?

- 1=No
- 2=Yes
- 3=I don't remember/I don't know

Q189. [if Q188=1 or 3] Did **he** ejaculate (cum) into your rectum (arse)?

- 1=No
- 2=Yes
- 3=I don't remember/I don't know

Q190. [if Q187=3 or 4] Did **you** use a condom when you were "active" in anal intercourse?

- 1=No
- 2=Yes
- 3=I don't remember/I don't know

Q191. [if Q190=1 or 3] Did **you** ejaculate (cum) into his rectum (arse)?

- 1=No
- 2=Yes
- 3=I don't remember/I don't know

Q192. Did **he** ejaculate (cum) into **your** mouth on that occasion?

- 1=No
- 2=Yes
- 3=I don't remember/I don't know

Q193. Did **you** ejaculate (cum) into **his** mouth on that occasion?

- 1=No
- 2=Yes
- 3=I don't remember/I don't know

Q194. Were **you** using poppers (nitrite inhalants) during this sexual session?

- 1=No
- 2=Yes
- 3=I don't remember/I don't know

Q195. Was **he** using poppers (nitrite inhalants) during this sexual session?

- 1=No
- 2=Yes
- 3=I don't remember/I don't know

Q196. On a scale of 1 (worst) to 10 (best), how would you rate this sexual session?

- 1=1 (worst)
- 2=2
- ...
- 10=10 (best)

[if Q148 less than 8] **PAYING AND BEING PAID FOR SEX WITH MEN**

Q197. In the last 12 months, how often have you paid a man to have sex with you in <Q4>?

- 1=Not at all
- 2=1-2 times
- 3=3-10 times
- 4=11-50 times
- 5=More than 50 times

Q198. In the last 12 months how often have you been paid by a man to have sex with him in <Q4>?

- 1=Not at all
- 2=1-2 times
- 3=3-10 times
- 4=11-50 times
- 5=More than 50 times

[if Q148 less than 8] **SEX WITH MEN IN OTHER COUNTRIES**

Q199. When did you last have sex in a country outside the one you live in, with a man who does not also live in <Q4>?

[recency response set]

Q200. [if Q199 less than 6] In which country was that?

[see Appendix for response set]

Q201. [if Q199 less than 6] Where did you first meet him?
1=A gay community centre, gay organisation or gay social group
2=A gay café or gay bar
3=A gay disco or nightclub
4=A backroom of a bar, gay sex club, a public gay sex party
5=A gay sex party in a private home
6=A gay sauna
7=A porn cinema
8=A cruising location (street, roadside service area, park, beach, baths, lavatory)
9=A web-site for gay or bisexual men
10=Elsewhere

Q202. [if Q199 less than 6] On that occasion did you pay him
1=No
2=Yes
3=I don't remember

Q203. [if Q199 less than 6] On that occasion did he pay you
1=No
2=Yes
3=I don't remember

Q204. [if Q199 less than 6] On that occasion did you and that partner have anal intercourse (fucking), either with or without condoms
1=No
2=Yes
3=I don't remember

Q205. [if Q204=2] On that occasion did you and that partner have anal intercourse (fucking) without a condom?
1=No
2=Yes
3=I don't remember

ABOUT ACCESS TO CONDOMS

Q206. When was the last time you wanted a condom but did not have one?
[recency response set]

Q207. When was the last time you had unprotected anal intercourse solely because you did not have a condom?
[recency response set]

ABOUT SEX WITH WOMEN

In this survey, we use "sex" to mean physical contact to orgasm (or close to orgasm) for one or both partners.

Q208. When did you last have any kind of sex with a woman?
[recency response set]

[if Q208 less than 6] In the next question we use the term "intercourse" to mean sex where the man puts his penis into the woman's vagina or anus, whether or not this occurs to ejaculation.

Q209. [if Q208 less than 6] How many different women, have you had vaginal or anal intercourse with in the last 12 months?

- 1=None
- 2=1
- ...
- 11=10 or more

Q210. [if Q209 greater than 1] In the last 12 months, how often have you used condoms when you had vaginal or anal intercourse with women?

- 1=Never
- 2=Seldom
- 3=Sometimes
- 4=Mostly
- 5=Always

ABOUT USING CONDOMS SAFELY

Q211. Just to check, have you worn a condom when having active anal intercourse in the last 12 months?

[No-Yes]

Q212-Q218. [if Q211=2] All of the following may contribute to condoms tearing or slipping off during intercourse. For each one, say whether you have done this or not when you have worn condoms in the last 12 months?

Q212. Not using any lubricant

- 1=No, I have not done this when wearing a condom
- 2=Yes, I have done this when wearing a condom

Q213. Using saliva as a lubricant

- 1=No, I have not done this when wearing a condom
- 2=Yes, I have done this when wearing a condom

Q214. Putting lubricant inside the condom before putting it on

- 1=No, I have not done this when wearing a condom
- 2=Yes, I have done this when wearing a condom

Q215. Not using lots of lubricant on the outside of the condom

- 1=No, I have not done this when wearing a condom
- 2=Yes, I have done this when wearing a condom

Q216. Using a condom that is too large or small for my penis

- 1=No, I have not done this when wearing a condom
- 2=Yes, I have done this when wearing a condom

Q217. Having intercourse for over half an hour without changing the condom

- 1=No, I have not done this when wearing a condom
- 2=Yes, I have done this when wearing a condom

Q218. Using an oil based lubricant (such as petroleum jelly, baby oil, moisturiser) with latex (rubber) condoms

- 1=No, I have not done this when wearing a condom
- 2=Yes, I have done this when wearing a condom

Q219. [if Q211=2] In the last 12 months has a condom you were wearing torn or slipped off during intercourse?

- 1=No
- 2=Yes, one time
- 3=Yes, more than one time
- 4=I don't know

ABOUT USING VARIOUS SUBSTANCES

Q220. Have you ever injected anabolic steroids (testosterone)?

- 1=No, never
- 2=Yes, within the last 12 months
- 3=Yes, more than 12 months ago

Q221. Have you ever injected any drug other than anabolic steroids or medicines?

- 1=No, never
- 2=Yes, within the last 12 months
- 3=Yes, more than 12 months ago

Q222-Q223. Do you disagree or agree with the following statements?

Q222. I worry about how much I drink.

[5 point disagree-agree]

Q223. I worry about my recreational drug use.

[5 point disagree-agree]

How long has it been since you last consumed the following substances: Please say when you last did something, even if this was not typical for you.

Q224. When was the last time you consumed alcohol?

[recency response set]

Q225. When was the last time you consumed tobacco products?

[recency response set]

Q226. When was the last time you consumed poppers (nitrite inhalants)?

[recency response set]

Q227. When was the last time you consumed Viagra®, Cialis®, Levitra® or other substances that help to keep an erection?

[recency response set]

Q228. When was the last time you consumed sedatives or tranquilizers (Valium®, Rivotril®, Rohypnol®)?

[recency response set]

Q229. Have you EVER taken any other recreational or illicit drugs?

[No-Yes]

[if Q229=2] **ABOUT OTHER SUBSTANCES YOU MAY HAVE CONSUMED**

Please say when you last did something, even if this was not typical for you.

Q230. When was the last time you consumed **cannabis (hashish, marijuana)**?

[recency response set]

- Q231. When was the last time you consumed **ecstasy (E, XTC, MDMA)**?
[recency response set]
- Q232. When was the last time you consumed **amphetamine (speed)**?
[recency response set]
- Q233. When was the last time you consumed **crystal methamphetamine (crystal, meth, Tina)**?
[recency response set]
- Q234. When was the last time you consumed **heroin or related drugs** (poppy straw, kompot, fentanyl)?
[recency response set]
- Q235. When was the last time you consumed **mephedrone (4-MMC, meow, methylone, bubbles)**?
[recency response set]
- Q236. When was the last time you consumed **GHB/GBL (liquid ecstasy)**?
[recency response set]
- Q237. When was the last time you consumed **ketamine (special K)**?
[recency response set]
- Q238. When was the last time you consumed **LSD (acid)**?
[recency response set]
- Q239. When was the last time you consumed **cocaine**?
[recency response set]
- Q240. When was the last time you consumed **crack cocaine**?
[recency response set]

DID YOU KNOW THIS ABOUT HIV AND SEXUALLY TRANSMITTED INFECTIONS

Q241-Q246. The following six statements are all TRUE. **Did you know this already?**

- Q241. HIV **cannot** be passed during kissing, including deep kissing, because saliva does not transmit HIV.
[knowledge response set]
- Q242. You **can** pick up HIV through your penis while being 'active' in unprotected anal or vaginal sex (fucking) with an infected partner, even if you don't ejaculate.
[knowledge response set]
- Q243. You **can** pick up HIV through your rectum while being 'passive' in unprotected anal sex (being fucked) with an infected partner.
[knowledge response set]
- Q244. Even without ejaculation, oral sex (sucking and being sucked) carries a risk of infection with syphilis or gonorrhoea.
[knowledge response set]
- Q245. When HIV infected and uninfected men have sex together, the chances of HIV being passed on are greater if either partner has another sexually transmitted infection.
[knowledge response set]
- Q246. Most sexually transmitted infections can be passed on more easily than HIV.
[knowledge response set]

ABOUT POST EXPOSURE PROPHYLAXIS (PEP)

Q247-Q249. The following three statements are all TRUE. **Did you know this already?**

Q247. Post-exposure prophylaxis (PEP) attempts to stop HIV infection taking place after a person is exposed to the virus.

[knowledge response set]

Q248. PEP is a one month course of anti-HIV drugs.

[knowledge response set]

Q249. PEP should be started as soon as possible after exposure, preferably within hours.

[knowledge response set]

Q250. [if Q71=1 or 3] Have you ever been treated with PEP?

1=No

2=Yes

3=I don't know

Q251. [if Q71=2] Before you were diagnosed with HIV, had you ever been treated with PEP?

1=No

2=Yes

3=I don't know

Q252. [if Q71=1 or 3] How confident are you that you could get PEP if you thought you needed it?

1=Very confident

2=Quite confident

3=A little confident

4=Not at all confident

5=I don't know

[if Q71=2] **HOW OTHERS HAVE REACTED TO YOU HAVING HIV**

Q253-Q263. How often have you experienced each of the following?

Q253. I have avoided telling others that I have HIV.

[frequency response set]

Q254. I have been treated less favourably by others when they have learned that I have HIV.

[frequency response set]

Q255. Friends who learnt that I have HIV were supportive and understanding.

[frequency response set]

Q256. I have been shunned or avoided socially when it was known that I have HIV.

[frequency response set]

Q257. I have been shunned or avoided sexually when it was known that I have HIV.

[frequency response set]

[if Q71=2] **HOW OTHERS HAVE REACTED TO YOU HAVING HIV (...CONTINUED)**

Again, please say how often have you experienced each of the following?

Q258. I have personally heard others say unfavourable or offensive things about people with HIV.

[frequency response set]

Q259. I have been advised to lower my expectations in life because I have HIV.
[frequency response set]

Q260. I have been treated unfairly by others because they know I have HIV.
[frequency response set]

Q261. I have seen or read things in the media about people with HIV that I find hurtful or offensive.
[frequency response set]

Q262. I have worried that others will view me unfavourably because I have HIV.
[frequency response set]

Q263. I have been denied medical help because I have HIV.
[frequency response set]

EXPERIENCE OF ABUSE

Please say when something last happened, even if this was not typical for you.

Q264. When was the last time you were **stared at or intimidated** because someone knew or presumed you are attracted to men?
[recency response set]

Q265. When was the last time you had **verbal insults** directed at you, because someone knew or presumed you are attracted to men?
[recency response set]

Q266. When was the last time you were **punched, hit, kicked, or beaten** because someone knew or presumed you are attracted to men?
[recency response set]

HOW COMFORTABLE ARE YOU WITH HOMOSEXUALITY

Do you disagree or agree with the following statements on a scale of 1 Strongly disagree to 7 Strongly agree? Please do not spend too much time thinking about any one statement. [Q267-274 were rotated so that their order of presentation changed]

Q267. Obviously effeminate homosexual men make me feel uncomfortable.
[7 point disagree-agree with does not apply]

Q268. I feel comfortable in gay bars.
[7 point disagree-agree with does not apply]

Q269. Social situations with gay men make me feel uncomfortable.
[7 point disagree-agree with does not apply]

Q270. I feel comfortable being seen in public with an obviously gay person.
[7 point disagree-agree with does not apply]

Q271. I feel comfortable discussing homosexuality in a public situation.
[7 point disagree-agree with does not apply]

Q272. I feel comfortable being a homosexual man.
[7 point disagree-agree with does not apply]

Q273. Homosexuality is morally acceptable to me.
[7 point disagree-agree with does not apply]

Q274. Even if I could change my sexual orientation, I wouldn't.
[7 point disagree-agree with does not apply]

Q268-Q274. INTERNALISED HOMONEGATIVITY SCORE

[Taken together the eight questions Q267-274 form a single scale measuring 'internalised homonegativity'. Subsequent to fieldwork it was found the first item (Q267) is not required for this scale. The internalised homonegativity score has been computed by: rescaling the remaining 7 items from 1-7 to 0-6; reversing the scores for items Q268, Q270, Q271, Q272, Q273 and Q274; and taking the mean score for the 7 items. The scale therefore ranges from 0 to 6. Scores can only be computed if all 7 items were rated. Cases responding 'Does not apply to me' or with missing data for any of the 7 items do not have an internalised homonegativity score. For this variable only, missing and not applicable are indicated by -1.]

ABOUT YOUR EDUCATION AND OCCUPATION

Q275. What is your highest education qualification?

[The response set for Q275 varied for each language version of the questionnaire, to correspond to the six levels of the International Standardised Classification of Educational Degrees (ISCED)]

1=[ISCED 1]

2=[ISCED 2]

3=[ISCED 3]

4=[ISCED 4]

5=[ISCED 5]

6=[ISCED 6]

Q276. Which of the following best describes your current occupation?

1=Employed full-time

2=Employed part-time

3=Self-employed

4=Unemployed

5=Student

6=Retired

7=Long-term sick leave / medically retired

8=Other

AND FINALLY...

Q277. What is your idea of the best sex life?

[write in answer]

Q278. Who is the sexiest man on the planet?

[write in answer]

Thanks for taking part.

Now please press 'submit answers'.

7. Recruitment Source Codes

How the respondent arrived at the survey is given by the Source Code (one of the eight case variables described in Chapter 4). This chapter describes what each source code refers to.

Cases are tagged with the source code allocated by the person placing the banner on the website. In some cases this person did not generate their own URL (a source code for their website) but copied one from another website. In these cases, the source will be misallocated. Because of this, some websites that recruited to EMIS are not in this list (where this was known to occur, the agencies are separated by '<AND>' below). In addition, some websites may have placed a banner but not recruited any qualifying cases and will also be missing from this list. Therefore this list the minimum number of websites recruiting to EMIS.

The following list of agencies also comprises part of the acknowledgements for the data. Without the collaboration of these agencies EMIS would not have been possible.

<i>Code</i>	<i>Web address</i>	<i>Organisation name</i>	<i>Description</i>

8. Standard Response Sets

Many questions share the same set of response options. The five most common response sets are given below, and appear under the relevant questions by their name (eg. 'knowledge response set').

No-Yes response set

- 1=No
- 2=Yes

5 point disagree-agree response set

- 1=Strongly disagree
- 2=Disagree
- 3=Neither / not sure
- 4=Agree
- 5=Strongly agree

Recency response set [On-screen the option 'Never' was presented first]

- 1=Within the last 24 hours
- 2=Within the last 7 days
- 3=Within the last 4 weeks
- 4=Within the last 6 months
- 5=Within the last 12 months
- 6=Within the last 5 years
- 7=More than 5 years ago
- 8=Never

Knowledge response set

- 1=I already knew this
- 2=I wasn't sure about this
- 3=I didn't know this already
- 4=I don't understand this
- 5=I do not believe this

Frequency response set

- 1=Never
- 2=Rarely
- 3=Sometimes
- 4=Often
- 5=Very often
- 6=Does not apply to me

7 point disagree-agree with does not apply response set

- 1=1 Strongly disagree
- 2=2
- 3=3
- 4=4 Undecided
- 5=5
- 6=6
- 7=7 Strongly agree
- 8=Does not apply to me

9. Country Response Set

Q4, Q7 and Q200 use the following country response set. Countries in bold are those which had a regional question and response set (Q5). Countries underlined are those whose residents were invited to continue the survey but for which no regional question was asked. Men living in countries neither bolded nor underlined were served the exit text Q4b.

1=Afghanistan	50=Ecuador
2=Albania	51=Egypt
3=Algeria	52=El Salvador
<u>4=Andorra</u>	53=Equatorial Guinea
5=Angola	54=Eritrea
6=Antigua and Barbuda	55=Estonia
7=Argentina	56=Ethiopia
8=Armenia	57=Fiji
9=Australia	58=Finland
10=Austria	59=France
<u>11=Azerbaijan</u>	60=France, Overseas Departments, Territories and Collectivities
12=Bahamas	61=Gabon
13=Bahrain	62=Gambia
14=Bangladesh	<u>63=Georgia</u>
15=Barbados	64=Germany
16=Belarus	65=Ghana
17=Belgium	66=Greece
18=Belize	<u>67=Greenland</u>
19=Benin	68=Grenada
20=Bhutan	69=Guatemala
21=Bolivia	70=Guinea
<u>22=Bosnia and Herzegovina</u>	71=Guinea-Bissau
23=Botswana	72=Guyana
24=Brazil	73=Haiti
25=Brunei	74=Honduras
26=Bulgaria	75=Hungary
27=Burkina Faso	<u>76=Iceland</u>
28=Burundi	77=India
29=Cambodia	78=Indonesia
30=Cameroon	79=Iran
31=Canada	80=Iraq
32=Cape Verde	81=Ireland (Republic of)
33=Central African Republic	82=Israel
34=Chad	83=Italy
35=Chile	84=Ivory Coast
36=China	85=Jamaica
37=Colombia	86=Japan
38=Comoros	87=Jordan
39=Congo - Kinshasa	<u>88=Kazakhstan</u>
40=Congo - Brazzaville	89=Kenya
41=Costa Rica	90=Kiribati
<u>42=Croatia</u>	91=Korea, North
43=Cuba	92=Korea, South

11. International Strategic Planning Indicators

Both the United Nations and the European Centre for Disease Control have published suggestions for the construction of indicators to gauge national responses to HIV epidemics. This chapter considers which EMIS questions can be used to assist in the construction of these indicators.

11.1 UNITED NATIONS GENERAL ASSEMBLY SPECIAL SESSION ON HIV/AIDS (UNGASS) CORE INDICATORS FOR THE IMPLEMENTATION OF THE 2001 DECLARATION OF COMMITMENT ON HIV/AIDS

UNGASS has published 25 indicators to assess how well countries are achieving the goals of the 2001 Declaration of Commitment on HIV/AIDS. They are published at:

http://data.unaids.org/pub/manual/2009/jc1676_core_indicators_2009_en.pdf

EMIS asked questions that can construct six of these indicators (Indicators 8, 9, 14, 15, 16 and 19). The following sections describe these indicators and give the EMIS question numbers that can be used to construct them.

UNGASS 8. Percentage of most-at-risk populations that have received an HIV test in the last 12 months and who know the results [comparable with ECDC 3a(ii)]

MSM are a most-at-risk population. UNGASS suggests disaggregating this indicator using two age bands: up to 24 years; and 25 years and over.

Q2. How old are you?

Q71. Have you ever received an HIV test result?

Q72. [if Q71=2, ie. tested positive] In which year were you first diagnosed HIV positive?

Q73. [if Q72=26, ie. 2009] Were you first diagnosed with HIV within the last 12 months?

Q104. [if Q71=3, ie. last test negative] When did you last have an HIV test?

UNGASS 9. Percentage of most-at-risk populations reached with HIV prevention programmes

EMIS did not ask the precise HIV prevention programme coverage questions suggested by UNGASS. These were a measure of HIV testing service need ("Do you know where you can go if you wish to receive an HIV test?"), a measure of encountering free condom distribution ("In the last twelve months, have you been given condoms (e.g. through an outreach service, drop-in centre or sexual health clinic)?"), and, for people who inject drugs, a measure of encountering free injecting equipment ("In the last twelve months, have you been given sterile needles and syringes (e.g. by an outreach worker, a peer educator or from a needle exchange programme)?"). EMIS did ask the following comparable measures of HIV testing-related need and programme coverage. No questions were asked about access to injecting equipment.

HIV testing access

Q112. [if Q71=1, ie. never HIV tested] How confident are you that you could get a test for HIV if you wanted one?

Q113. [if Q71=3, ie. last HIV test negative] How confident are you that you could get another test for HIV if you wanted one?

Condom access

Q206. When was the last time you wanted a condom but did not have one?

Q207. When was the last time you had unprotected anal intercourse solely because you did not have a condom?

Information access

Q144. When was the last time you saw or heard any information about HIV or STIs specifically for men who have sex with men?

Q145. When was the last time you saw any information about HIV or STIs in a magazine or newspaper?

Q146. When was the last time you actively looked for information about HIV or STIs on the internet?

Q147. When did you last call a telephone helpline for information about HIV or STIs?

UNGASS 14. Percentage of most-at-risk populations who both correctly identify ways of preventing the sexual transmission of HIV and who reject major misconceptions about HIV transmission [comparable to ECDC 6]

UNGASS suggest five questions that can be asked in surveys of most-at-risk population, only one of which (question 3, Can a healthy-looking person have HIV?) had a comparable question in EMIS. Knowledge items took the form of supplying statements respondents had been told were true, and them being asked if they knew this already. While this will under-estimate ignorance it will also both avoid the statement of falsehoods and serves a positive educational purpose. For more on knowledge items, see ECDC 6.

Q62. You cannot be confident about whether someone has HIV or not from their appearance.

UNGASS 15. Percentage of young women and men who have had sexual intercourse before the age of 15 [comparable with ECDC 7b]

EMIS only asked about age at first sexual experiences with men. Therefore this indicator cannot be constructed. However, EMIS is able to construct these proportions for first anal intercourse with a man. Young is defined as under 25. UNGASS suggests disaggregating this indicator by two age groups: 15-19 years; and 20-24 years.

Q2. How old are you?

Q148. When did you last have any kind of sex with a man (please include any sexual contact, not just anal intercourse)?

Q150. [if Q148 is less than 8, ie. has had sex with a man] Have you **ever** had anal intercourse with a man (either "passive" or "active" fucking), either with or without a condom?

Q151. [if Q150=2, ie. yes] How old were you the **very first** time you had anal intercourse with a man/boy?

UNGASS 16. Percentage of adults aged 15–49 who have had sexual intercourse with more than one partner in the last 12 months [comparable with ECDC 1]

'Sexual partners' (those with whom any sexual activity occurred) should be distinguished from 'penetrative sexual partners' (those with whom vaginal or anal intercourse - a subset of sexual partners). EMIS asked for numbers of male sexual partners *and* male penetrative partners (separately for steady and non-steady partners), but only for female penetrative partners (undistinguished by steady/non-steady). UNGASS suggest disaggregating this indicator by three age groups: 15–19 years; 20–24 years; and 25–49 years.

Q2. How old are you?

Q148. When did you last have any kind of sex with a man (please include any sexual contact, not just anal intercourse)?

Q155. [if Q148 less than 6, ie. in last 12 months] In the last 12 months have you had any kind of sex with a steady male partner?

Q157. [if Q155=2, ie. yes] How many steady male partners have you had anal intercourse with in the last 12 months?

Q163. [if Q148 less than 6, ie. in last 12 months] In the last 12 months have you had any kind of sex with a non-steady male partner?

Q165. [if Q163=2, ie. yes] How many non-steady partners did you have anal intercourse with in the last 12 months?

Q208. When did you last have any kind of sex with a woman?

Q209. [if Q208 less than 6, ie. within the last 12 months] How many different women, have you had

vaginal or anal intercourse with in the last 12 months?

UNGASS 19. Percentage of men reporting the use of a condom the last time they had anal sex with a male partner (within last six months) [comparable to ECDC 2]

EMIS asked men how recently their most recent anal intercourse was. UNGASS suggests disaggregating this indicator using two age bands: up to 24 years; and 25 years and over.

Q2. How old are you?

Q148. When did you last have any kind of sex with a man (please include any sexual contact, not just anal intercourse)?

Q150. [if Q148 less than 8, ie. ever had sex with a man] Have you **ever** had anal intercourse with a man (either "passive" or "active" fucking), either with or without a condom?

Q152. [if Q150=2, ie. has had anal intercourse] When did you last have anal intercourse with a man (either with or without a condom)?

Q153. [if Q150=2, ie. has had anal intercourse] On that most recent occasion of anal intercourse, did you have unprotected anal intercourse (that is without a condom)?

11.2 EUROPEAN CENTRE FOR DISEASE CONTROL (ECDC) 'BEHAVIOURAL' SURVEILLANCE INDICATORS

The ECDC has suggested a set of indicators for the surveillance of HIV/STI related factors among MSM in Europe. Not all are behavioural. They are listed in the following report by Dubois-Arber *et al.* (2009):

http://www.ecdc.europa.eu/en/publications/Publications/0909_TER_Mapping_of_HIV_STI_Behavioural_Surveillance_in_Europe.pdf

The indicators are given on p.60 (*Conclusions and suggestions on behavioural surveillance systems and indicators*, Table 6.2 Minimum list of indicators).

The table contains 6 numbered core indicators common to all populations. The core indicators are numbered ECDC 1 to ECDC 6 below (some are compound and have been split and labeled a, b, c below).

In addition, there are several un-numbered indicators for specific populations. Those for MSM are numbered ECDC 7 to ECDC 15 below. There is then a group of three additional indicators (ECDC 16a, b and c) for MSM with diagnosed HIV infection.

Dubois-Arber *et al.* (2009, p.58) suggested that surveillance should include the type of place MSM meet their sexual partners. This has been included as ECDC 17.

ECDC 1. Number of sexual partners in the last 12 months [comparable with UNGASS 16]

'Sexual partners' (those with whom any sexual activity occurred) should be distinguished from 'penetrative sexual partners' (those with whom vaginal or anal intercourse - a subset of sexual partners). EMIS asked for numbers of male sexual partners *and* male penetrative partners (separately for steady and non-steady partners), but only for female penetrative partners (undistinguished by steady/non-steady).

ECDC 1a. Number of steady male sexual partners and penetrative sexual partners in the last 12 months

Q148. When did you last have any kind of sex with a man (please include any sexual contact, not just anal intercourse)?

Q155. [if Q148 less than 6, ie. in last 12 months] In the last 12 months have you had any kind of sex with a steady male partner?

Q156. [if Q155=2, ie. yes] How many different steady male partners have you had sex with in the last 12 months?

Q157. [if Q155=2, ie. yes] How many steady male partners have you had anal intercourse with in the last 12 months?

ECDC 1b. Number of non-steady male sexual partners and penetrative sexual partners in the last 12 months

Q148. When did you last have any kind of sex with a man (please include any sexual contact, not just anal intercourse)?

Q163. [if Q148 less than 6, ie. in last 12 months] In the last 12 months have you had any kind of sex with a non-steady male partner?

Q164. [if Q163=2, ie. yes] How many different non-steady male partners have you had sex with in the last 12 months?

Q165. [if Q163=2, ie. yes] How many non-steady partners did you have anal intercourse with in the last 12 months?

ECDC 1c. Number of female penetrative sexual partners in the last 12 months

Q208. When did you last have any kind of sex with a woman?

Q209. [if Q208 less than 6, ie. within the last 12 months] How many different women, have you had vaginal or anal intercourse with in the last 12 months?

ECDC 2. Use of condom at last intercourse (in the last 12 months) [comparable with UNGASS 19]

EMIS asked men how recently their most recent anal intercourse was and whether or not it featured a condom.

Q148. When did you last have any kind of sex with a man (please include any sexual contact, not just anal intercourse)?

Q150. [if Q148 is less than 8, ie. ever had sex with a man] Have you **ever** had anal intercourse with a man (either "passive" or "active" fucking), either with or without a condom?

Q152. [if Q150=2, ie. has had anal intercourse] When did you last have anal intercourse with a man (either with or without a condom)?

Q153. [if Q150=2, ie. has had anal intercourse] On that most recent occasion of anal intercourse, did you have unprotected anal intercourse (that is without a condom)?

ECDC 2a. Use of condom at last intercourse with a steady partner (in the last 12 months)

Q155. In the last 12 months have you had any kind of sex with a steady male partner?

Q157. [if Q155=2] How many steady male partners have you had anal intercourse with in the last 12 months?

Q159. [if Q157 greater than 1] In the last 12 months, how often have you had anal intercourse with your steady male partner?

Q160. [if Q159 greater than 1] In the last 12 months, how often were condoms used for anal intercourse with your steady male partner?

Q161. [if Q160 less than 5] The last time you had anal intercourse with your steady male partner, did you use a condom?

ECDC 2b. Anal intercourse and use of condom at last sex with a non-steady partner (in the last 12 months)

For MSM 'sexual partner' does not equate with 'anal intercourse partner', so a man's last occasion of sex need not be his last occasion of anal intercourse. EMIS did not ask about the last occasion of anal intercourse, whether it featured a condom and what type of partner it was with. EMIS asked about whether the last occasion of sex with a non-steady partner featured anal intercourse, and if so whether it featured a condom. This is therefore not the same as the proportion of last intercourse with a non-steady partner that featured a condom.

Q163. In the last 12 months have you had any kind of sex with a non-steady male partner?

Q187. [if Q163=2, ie. yes] Did you have anal intercourse (fuck) on that occasion [ie. the last time you had sex with a non-steady male sex partner]?

Q188. [if Q187=2 or 4, ie. respondent was receptive] Did he use a condom when he was active in anal

intercourse (when he fucked you)?

Q190. [if Q187=3 or 4, ie. respondent was insertive] Did you use a condom when you were "active" in anal intercourse?

ECDC 3a1. Ever HIV tested

the response set for Q71 includes the result of the last test.

Q71. Have you ever received an HIV test result?

ECDC 3a2. Whether tested in the last 12 months [comparable with UNGASS 8]

Q72. [if Q71=2, ie. tested positive] In which year were you first diagnosed HIV positive?

Q73. [if Q72=26, ie. 2009] Were you first diagnosed with HIV within the last 12 months?

Q104. [if Q71=3, ie. last test negative] When did you last have an HIV test?

ECDC 3b. Result of last HIV test

Q71. Have you ever received an HIV test result?

ECDC 4a. Having paid for sex in the last 12 months

EMIS asked about paying for sex within the last 12 months only in the respondent's country of residence (and for being paid, see ECDC 10 below). Whether or not the last sex with a new partner abroad involved paying the partner was asked at Q202.

Q197. In the last 12 months, how often have you paid a man to have sex with you in [country of residence]?

ECDC 4b. Use of condom at last paid intercourse (in the last 12 months)

EMIS did not ask questions that could construct this indicator.

ECDC 5a. Level of education

Q275. What is your highest education qualification?

ECDC 5b. Nationality/ethnic origin

Dubois-Arber *et al.* (2009) recognise this as important but found no agreed indicator for nationality or ethnic origin. No consensus was established among EMIS partners as how to ask for ethnic minority status. The following are suggested for indicating migrancy.

Q4. Which country do you currently live in?

Q6. Were you born in <Q4>?

Q7. [if Q6=1] Which country were you born in?

Q8. [if Q6=1] How many years have you been living in [country of residence]?

ECDC 5c. Sexual orientation

For sexual orientation based on attraction or identity, the following questions can be used.

Q9. Who are you sexually attracted to?

Q10. Which of the following options best describes how you think of yourself?

Dubois-Arber *et al.* (2009) take a behavioural definition of 'sexual orientation' and suggest using a 'modified Kinsey' scale for the gender of sexual partners using a five point scale (only with a male or males, never with a female; more often with males, and at least once with a female; about equally often with males and with females; more often with females, and at least once with a male; only with a female

or females, never with a male). However, they do not suggest a time period for this behavioural balance (for example, the last year, last five years, life time).

EMIS did not ask men about the number of female non-penetrative sexual partners. This means a five-point scale for sexual partners cannot be constructed from EMIS data.

A three point behavioural sexual orientation scale (sex with men only; sex with both men and women; sex with women only) for varying time periods can be constructed from:

Q148. When did you last have any kind of sex with a man (please include any sexual contact, not just anal intercourse)?

Q208. When did you last have any kind of sex with a woman?

A five point scale behavioural sexual orientation scale can be constructed for anal and vaginal intercourse partners in the last 12 months with the following:

Q148. When did you last have any kind of sex with a man (please include any sexual contact, not just anal intercourse)?

Q155. In the last 12 months have you had any kind of sex with a steady male partner?

Q157. [if Q155=2, ie. yes] How many steady male partners have you had anal intercourse with in the last 12 months?

Q163. In the last 12 months have you had any kind of sex with a non-steady male partner?

Q165. [if Q163=2, ie. yes] How many non-steady partners did you have anal intercourse with in the last 12 months?

Q208. When did you last have any kind of sex with a woman?

Q209. [if Q208 less than 6, ie. within the last 12 months] How many different women, have you had vaginal or anal intercourse with in the last 12 months?

ECDC 6. Being able to both correctly identify ways of preventing the sexual transmission of HIV and to reject major misconceptions about HIV transmission
[comparable to UNGASS 14]

Dubois-Arber *et al.* (2009) suggest these indicators vary according to context. As EMIS was a survey about HIV transmission during sex between men (and not an all encompassing survey about HIV for gay and bisexual men), the knowledge gauged concerned HIV transmission during sex between men (including knowledge of testing and treatment which is required to have control over sexual transmission).

Knowledge items appeared in three blocks in EMIS and took the form of supplying statements respondents had been told were true, and them being asked if they knew this already. While this will under-estimate ignorance it will also both avoid the statement of falsehoods and serves a positive educational purpose.

Q61. AIDS is caused by a virus called HIV.

Q62. You cannot be confident about whether someone has HIV or not from their appearance.

Q63. There is a medical test that can show whether or not you have HIV.

Q65. If someone becomes infected with HIV it may take several weeks before it can be detected in a test.

Q66. There is currently no cure for HIV infection.

Q67. HIV infection can be controlled with medicines so that its impact on health is much less.

Q68. Effective treatment of HIV infection reduces the risk of HIV being transmitted.

Q241. HIV cannot be passed during kissing, including deep kissing, because saliva does not transmit HIV.

Q242. You can pick up HIV through your penis while being 'active' in unprotected anal or vaginal sex (fucking) with an infected partner, even if you don't ejaculate.

Q243. You can pick up HIV through your rectum while being 'passive' in unprotected anal sex (being fucked) with an infected partner.

Q244. Even without ejaculation, oral sex (sucking and being sucked) carries a risk of infection with syphilis or gonorrhoea.

Q245. When HIV infected and uninfected men have sex together, the chances of HIV being passed on are greater if either partner has another sexually transmitted infection.

Q246. Most sexually transmitted infections can be passed on more easily than HIV.

Q247. Post-exposure prophylaxis (PEP) attempts to stop HIV infection taking place after a person is exposed to the virus.

Q248. PEP is a one month course of anti-HIV drugs.

Q249. PEP should be started as soon as possible after exposure, preferably within hours.

ECDC 7a. Age at first being (homo)sexually active

Q148. When did you last have any kind of sex with a man (please include any sexual contact, not just anal intercourse)?

Q149. [if Q148 less than 8] How old were you the very first time you had any kind of sex with a man/boy, or a man/boy had any kind of sex with you?

ECDC 7b. Age at first (anal) intercourse [comparable with UNGASS 15]

Q150. Have you **ever** had anal intercourse with a man (either "passive" or "active" fucking), either with or without a condom?

Q151. [if Q150=2] How old were you the very first time you had anal intercourse with a man/boy?

ECDC 8. Recent STI

Dubois-Arber *et al.* (2009) recognise this as important but found no agreed indicator for recent STI acquisition. The following questions can collectively approach this indicator.

Q131. Have you ever been diagnosed with syphilis?

Q132. [if Q131=2] When were you last diagnosed with syphilis?

Q133. Have you ever been diagnosed with gonorrhoea?

Q134. [if Q133=2] When were you last diagnosed with gonorrhoea?

Q135. Have you ever been diagnosed with chlamydia?

Q136. [if Q135=2] When were you last diagnosed with chlamydia?

Q137. Have you ever been diagnosed with anal or genital warts?

Q138. [if Q137=2] When were you FIRST diagnosed with anal or genital warts?

Q139. Have you ever been diagnosed with anal or genital herpes?

Q140. [if Q139=2] When were you FIRST diagnosed with anal or genital herpes?

ECDC 9. Condom use with different types of partners

Indicators for condom use with steady and non-steady male sexual partners are covered in ECDC 2. In addition, EMIS asked about what was known of the HIV status of partners with whom unprotected anal intercourse (UAI) occurred. These questions are interpretable only in conjunction with questions about the respondent's own HIV testing history. EMIS asked about the HIV status of the current or most recent steady partner, and whether UAI occurred with non-steady partners of different HIV statuses.

HIV testing history

Q71. Have you ever received an HIV test result?

Q72. [if Q71=2, ie. yes] In which year were you first diagnosed HIV positive?

Q73. [if Q72=26, ie. 2009] Were you first diagnosed with HIV within the last 12 months?

Q104. [if Q71=3, ie. last test negative] When did you last have an HIV test?

Steady partners of different HIV status

Q155. In the last 12 months have you had any kind of sex with a steady male partner?

Q157. [if Q155=2, ie. yes] How many steady male partners have you had anal intercourse with in the last 12 months?

Q159. [if Q157 greater than 1, ie. had AI with a steady partner] In the last 12 months, how often have you had anal intercourse with your steady male partner?

Q160. [if Q159 greater than 1, ie. more than not at all] In the last 12 months, how often were condoms used for anal intercourse with your steady male partner?

Q161. [if Q160 less than 5, ie. not always] The last time you had anal intercourse with your steady male partner, did you use a condom?

Q162. [if Q157 greater than 1, ie. had AI with a steady partner] Do you and this steady male partner have the same HIV status?

Non-steady partners of different HIV statuses

Q176. Just to check, have you had anal intercourse with a non-steady male sex partner in the last 12 months?

Q177. [if Q176=2, ie. yes] In the last 12 months, what proportion of your non-steady male sex partners have you had anal intercourse with?

Q178. [if Q177 greater than 1, ie. more than none] In the last 12 months, how often were condoms used when you had anal intercourse with non-steady male partners?

Q179. [if Q178 less than 5, ie. less than always] Have you had unprotected anal intercourse with a non-steady partner who you knew at the time was HIV positive?

Q180. [if Q178 less than 5, ie. less than always] Have you had unprotected anal intercourse with a non-steady partner who you knew at the time was HIV negative?

Q181. [if Q178 less than 5, ie. less than always] Have you had unprotected anal intercourse with a non-steady partner whose HIV status you did not know or think about at the time?

ECDC 10. Having been paid for sex in the last 12 months

EMIS asked about being paid for sex within the last 12 months only in the respondent's country of residence (and for paying, see ECDC 4a above). Whether or not the last sex with a new partner abroad involved paying the partner was asked at Q203.

Q198. In the last 12 months how often have you been paid by a man to have sex with him in <Q4>?

ECDC 11. Concurrency

Dubois-Arber *et al.* (2009) use concurrency to refer to regularly having sexual intercourse with more than one partner. Although they recognised concurrency as important, they found no agreed indicator for its measurement and suggest more research is required on the formulation of questions to measure it. However, they suggest that the "percentage of men and women regularly having sexual intercourse with more than one partner in the last 12 months" might be used (p.16). EMIS asked about current multiple steady relationships (Q40 to Q45) which are recoded to separately indicate steady single or multiple relationships with men or women.

Q40_45a. RECODED VARIABLE. Current steady relationship with a man.

Q40_45b. RECODED VARIABLE. Current steady relationship with a woman.

In addition, EMIS can identify those respondents who have been in a steady relationship of over 12 months duration (with a men or women) who also had other sexual partners in the last 12 months (steady or non-steady male partners for any sex, or female intercourse partners):

Q46. [if Q40=2 or Q41=2, ie. in a steady relationship with a man] How many years have you been in a steady relationship with this man? (If you have more than one steady relationship with a man, please tell us about the longest)

Q48. [if Q42=2 or Q43=2, ie. in a steady relationship with a woman] How many years have you been in a steady relationship with this woman? (If you have more than one steady relationship with a woman, please tell us about the longest)

Q155. In the last 12 months have you had any kind of sex with a steady male partner?

Q156. [if Q155=2, ie. yes] How many different steady male partners have you had sex with in the last 12

Q163. In the last 12 months have you had any kind of sex with a non-steady male partner?

Q164. [if Q163=2, ie. yes] How many different non-steady male partners have you had sex with in the last 12 months?

Q208. When did you last have any kind of sex with a woman?

Q209. [if Q208 less than 6, ie. female sex partner in last 12 months] How many different women, have you had vaginal or anal intercourse with in the last 12 months?

ECDC 12. Condom use for different types of sexual practices

See ECDC 2 and ECDC 9. EMIS asked about the use of condoms in anal and vaginal but not oral intercourse.

ECDC 13. Comprehensive indicator of exposure to risk

EMIS asked many questions that could be used towards construction of this indicator, which may better be thought of as a comprehensive indicator of contribution towards HIV/STI risk for both self and others.

ECDC 14a. Ever Hepatitis C test

ECDC 14b. Date of last Hepatitis C test

ECDC 14c. Result of the Hepatitis C test

EMIS did not ask respondents if they had ever been tested for Hepatitis C. The prevalence of Hepatitis C diagnosis, its recency and current status can be constructed from the following:

Q141. Have you ever been diagnosed with **hepatitis C**?

Q142. [if Q141=2, ie. yes] When were you **FIRST** diagnosed with **hepatitis C**?

Q143. [if Q141=2, ie. yes] What is your current hepatitis C status?

ECDC 15. Types of drugs consumed

Dubois-Arber *et al.* (2009) recognise this as important in certain groups and suggest the wording be adapted to the situation. EMIS asked about the recency of consuming a large number of specific drugs.

Q224. When was the last time you consumed alcohol?

Q225. When was the last time you consumed tobacco products?

Q226. When was the last time you consumed poppers (nitrite inhalants)?

Q227. When was the last time you consumed Viagra®, Cialis®, Levitra® or other substances that help to keep an erection?

Q228. When was the last time you consumed sedatives or tranquilizers (Valium®, Rivotril®, Rohypnol®)?

Q229. Have you **EVER** taken any other recreational or illicit drugs?

[If Q229=2, ie. yes]

Q230. When was the last time you consumed cannabis (hashish, marijuana)?

Q231. When was the last time you consumed ecstasy (E, XTC, MDMA)?

Q232. When was the last time you consumed amphetamine (speed)?

Q233. When was the last time you consumed crystal methamphetamine (crystal, meth, Tina)?

Q234. When was the last time you consumed heroin or related drugs (poppy straw, kompot, fentanyl)?

Q235. When was the last time you consumed mephedrone (4-MMC, meow, methylone, bubbles)?

Q236. When was the last time you consumed GHB/GBL (liquid ecstasy)?

Q237. When was the last time you consumed ketamine (special K)?

Q238. When was the last time you consumed LSD (acid)?

Q239. When was the last time you consumed cocaine?

Q240. When was the last time you consumed crack cocaine?

ECDC 16a. Being in HIV treatment

Q82. [if Q71=2, ie. tested HIV positive] When did you last see a health professional for monitoring your HIV infection?

Q83. [if Q71=2, ie. tested HIV positive] Have you ever taken antiretroviral treatment (sometimes know as ART or HAART) for your HIV infection?

Q93.[if Q83=2, ie. ever taken antiretroviral treatment] Are you currently taking antiretroviral treatment?

ECDC 16b. CD4 count (last count)

EMIS did not ask men diagnosed with HIV what their last CD4 count was, but instead asked those men diagnosed within the last ten years what their CD4 count was at diagnosis.

Q74. [if Q72 greater than 17, ie. diagnosed in 2001 or later] When you were first diagnosed with HIV, what was your CD4 count?

ECDC 16c. Viral load (last count)

Q103. [if Q82 less than 8, ie. ever seen a health professional for monitoring HIV infection] What was the result of your viral load test the last time you had your HIV infection monitored?

ECDC 17. Where men met their sexual partners in last 12 months (saunas, bars, clubs, internet, etc.)

Dubois-Arber *et al.* (2009) included a "suggested set of indicators" for MSM on p.26, most of which also appear in the table on p.60. This 'indicator' does not. EMIS did not ask men where they met sexual partners in the last 12 months but did ask men where they met their most recent non-steady sexual partner.

Q163. In the last 12 months have you had any kind of sex with a non-steady male partner?

Q182. Where did you first meet him [the most recent occasion you had sex with a non-steady male sex partner]?

EMIS also asked men how recently they had visited settings in which sexual health promotion may occur (Q31 to Q39), some of which are predominantly sex venues. However, the question does not distinguish those who met a sexual partner there from those who did not.

12. Acknowledgments

EMIS was made possible by the collaboration and contribution of a very large number of people working across a range of countries, institutions, communities, industries and disciplines. The following organisations and individuals have made it possible to reach this stage of the project:

Study design: Ulrich Marcus, Axel J. Schmidt (Robert Koch Institute); Ford Hickson, Peter Weatherburn (Sigma Research); Harm J. Hospers, (University College Maastricht); Cinta Folch (CEEISACT); Massimo Mirandola (Regione del Veneto).

Scientific co-ordination: Axel J. Schmidt (Robert Koch Institute).

Administrative co-ordination: Merle Achten, Stefanie Schmidt (GTZ).

Funders: European Agency for Health and Consumers (EAHC); Centre d'Estudis Epidemiològics sobre les ITS/HIV/SIDA de Catalunya (CEEISCAT); Department of Health for England; Regione del Veneto; Robert Koch Institute; University College Maastricht; German Ministry of Health; Finnish Ministry of Health; Norwegian Institute of Public Health; Swedish Board of Health and Welfare.

Advisory group: Cinthia Menel-Lemos (EAHC); Teymor Noori/Marita van de Laar (ECDC); Ulrich Laukamm-Josten (WHO Europe); Irena Klavs/Aleš Lamut (Slovenian Institute of Public Health); Rimo Berg (Norwegian Knowledge Centre for the Health Services).

Survey writing: Harm J. Hospers, Maike Kraasch, Mizzi Middelweerd (University College Maastricht); Axel J. Schmidt, Ulrich Marcus (Robert Koch Institute), Ford Hickson, Peter Weatherburn, David Reid (Sigma Research); with contributions from all collaborators through discussion, comments and pretesting.

Translation of the questionnaire: **Bulgarian:** Dim Dukov; Sergiu Grimalschi; **Czech:** Tomáš Rieger, Ivo Procházka; **Danish:** Jakob Haff; **Dutch:** Nathalie de Schipper, Karlijn Hillekens, Eva Roos, Harm J. Hospers, Wim Vanden Berghe; **Estonian:** Margus Enno, Aire Trummal; **Finnish:** Paula Nieminen, Tarja Suominen, Jari Kylmä, Teppo Heikkinen, Marja Pakarinen; **French:** Régis Gaspillard, Annie Velter, Daniela Rojas Castro, Vladimir Martens, Michael Bochow; **German:** Stefanie Lenuweit, Leon Witzel, Michael Bochow, Ursula von Rügen, Axel J. Schmidt, Ulrich Marcus; **Greek:** Nikos Pulos, Marianella Kloka, Nikos Dedes; **Hungarian:** Ferenc Bagyinszky; **Italian:** Matteo Zanetti, Michele Breveglieri, Raffaele Lelleri; **Latvian:** Antons Mozalevskis; **Lithuanian:** Rima Krupenkaite; **Norwegian:** Rigmor Berg; **Polish:** Katarzyna Gajewska; Sergiu Grimalschi; **Portuguese:** Ricardo Fuertes; **Romanian:** Tudor Kovacs, Sergiu Grimalschi; **Russian:** Nelia Vakhovska, Ekaterina Shmykova, Andriy Maymulakhin, Michael Mikolaychuk; **Serbian:** Daniel Mescovic, Sergiu Grimalschi; **Slovenian:** Miran Šolinc; **Spanish:** Cinta Folch Toda, Laia Ferrer Serret; **Swedish:** Robert Tore Bo Jacobsson, Mikael Jonsson, Staffan Hallin, Ronny Heikki Tikkanen; **Turkish:** Çağrı Kahveci, Sami Sarper Yazıcılaroğlu; Peyman Altan; **Ukrainian:** Nelia Vakhovska, Michael Mikolaychuk, Andriy Maymulakhin.

Survey hosting: Demographix.

Promotion and recruitment co-ordination: Peter Weatherburn, Kathie Jessup (Sigma Research).

Pan-European websites sending out invitations as instant messages: Gayromeo, Manhunt and Manhunt Cares, Qruiser, Qguys, Gaydar.

Websites posting buttons and banners: (See the list in Chapter 7).

Promoting EMIS in their country: **AT:** Aids-Hilfe Wien; **BE:** Cavaria, Ex Aequo, Sensoa, Arc-en-ciel; **BG:** Avis Viita Foundation, Dose of Love Association, Dim Dukov, Peter Tsintsarksi, Queer Bulgaria Foundation, SOS Families in Risk Foundation, Teodora Milotinova; **BY:** Встреча; Egoist; **CH:** Aids-Hilfe Schweiz; **CZ:** Česká společnost AIDS pomoc, Colour Planet; **DE:** Deutsche AIDS-Hilfe; **DK:** stopaids; **ES:** stopsida, Regional AIDS Plans of Andalucía, Comunidad de Madrid, Comunidad Valenciana, Galicia, País Vasco, Castilla-La Mancha, Región de Murcia, Aragón, Extremadura, Baleares, PRincipado de Asturias, Navarra, Cantabria and La Rioja; **FI:** HIV-säätiö/Aids-tukikeskus, Homoglobiini; **FR:** AIDeS, Act Up Paris, Sida Info Service, Le Kiosque, The Warning; **GR:** Positive Voice; **HR:** Tàrsaság a zabadságjogokért,
